

REPUTABLE BREEDER CHECKLIST

- Puppies for sale are born on the premises - not shipped in.
- Breeder does not sell puppies to wholesalers, brokers, dealers or retail shops.
- Dog set up is clean and well kept.
- Breeder insists that the puppies for sale will be at least seven weeks old before being placed.
- Sire and dam of the litter were tested for genetic health before the breeding.
- Puppies for sale and dogs for sale have been introduced to children and other animals as part of their socialization.
- Breeder reviewed some of the problems some people have with the breed.
- Breeder asked if you plan to breed the dog. Your contract should spell out spay and neuter or what is required if you are going to show your dog?
- Breeder is available as a resource for advice and support for the life of the dog.
- Breeder promises to take the dog in (Not return your money) if you can't keep it, for the life of the dog.
- Breeder provides a contract for your review and goes over it with you.
- Breeder raises no more than 2 different breeds of puppies for sale and dogs for sale. It is very difficult for a breeder to be competent in more breeds.
- Breeder is a member of a breed club.
- Breeder's primary concern is finding a good home for the puppy, rather than getting paid.
- Breeder asked you lots of questions about your lifestyle, family, experience with dogs and other pets, why you are looking for a dog for sale. Breeder was happy to answer all your questions and made you feel comfortable asking for advice.
- Breeder shows their dogs in conformation.
- Breeder breeds puppies to support their own line. Breeder does not breed for profit.
- Breeder selects the puppies out of the litter best suited for you and your family.
- Breeder's priority is the placement of the puppy in the best home and circumstances for all.

"RED FLAGS"

- Sells males for less money than females.
- Sells "show quality" while they never show themselves.
- Sells any puppy with full registration for more money, regardless of the quality or health of the pup.
- Breeding stock that has come from the Eastern European countries, like Hungary, Slovakia, Poland, Czech Republic, Russia, etc.
- Brokers pups from other breeders (Especially those outside the USA). No reputable breeder sells to a broker.
- Does not have verifiable health clearances on hips AND elbows of at least MOST of the dogs on the pups pedigree. If you are told "our vet said they are healthy" this is a BIG red flag.
- Breeder discourages you from visiting their facilities, or "suggests" you meet somewhere to get your pup.
- Requires money up front before any paperwork (such as pedigree info, contract info etc.) is provided. Requires deposits (usually non-refundable) before their bitch is bred or the litter is whelped.
- Sells without a contract.
- Puppies registered with other than AKC registry. (If you are getting a dog from Canada, then the CKC, Canadian Kennel Club is fine).
- Has a PayPal or credit card system set up for payment.
- Says "I just breed nice puppies for nice people." What this REALLY means is I am selling them to anyone who comes up with the cash."
- Breeds multiple breeds.
- Sells unregistered puppies or charges additional money for registering puppies.
- Advertises in the newspaper.
- Does not provide pedigree information or provide the family health history of the parents.
- Does not allow you to see the mother of the puppies.

BREEDERS

Following is a list of breeders who are members of the Bernese Mountain Dog Clubs of Greater Seattle and Oregon. It is the sole responsibility of each individual breeder to follow a code of conduct since the clubs do not inspect or otherwise approve the breeding practices of any particular breeder. If you are interested in buying a puppy, it is your responsibility to get the information you need to make that decision.

The Bernese Mountain Dog Clubs of Greater Seattle and Oregon DO NOT endorse, inspect, guarantee, or otherwise approve any particular breeder(s). The BMDCGS and BMDCO are providing this list to help educate the public as they attempt to locate a breeder. This is not a comprehensive list, but only those breeders who chose to respond to our request for information. The information provided on this list is based on the information we received from the breeders. Please verify that information when you contact the Breeder.

The listing below is alphabetical. We recommend that you talk to and visit as many breeders as possible to find the one that is right for you. Highlighting indicates breeders currently with puppies or dogs or litters planned in the near future. The presence of highlighting does not guarantee or imply that puppies are available from those litters as most are planned for and have homes waiting.

PLEASE NOTE: We have attempted to provide you with information that may assist you in making a well-informed decision. In the end, only you know what is best for your and your family. If, at any time, you are uncomfortable with a breeder, their answers to questions, or their facilities, we would encourage you to look elsewhere.

****Do not substitute outside judgements for your own****

Be an Informed Buyer

Some questions to ask when talking to breeders.

(Make copies of this as you contact breeders so that you can keep your records straight)

Breeder's name / Kennel name _____

Phone number _____ Pups available _____ Next litter due _____

Basic health clearances for breeding animals. OFA ratings come on a Certificate and the breeder should have it at hand
